

IMPACT2C 4th General Assembly

October, 27 – October,30 2014

DMI, Copenhagen

The intention of the meeting is to provide a concise overview of the progress of the work; situate the main achievements in the context of the research field and give the opportunity to beneficiaries to discuss and clarify details of the WPs.

A particular issue is to make a final decision on any project adjustments for the final year, including financial.

A detailed planning will be undertaken for the 2nd management report of the project. A half-day workshop for stakeholders will be organized.

Attendance is mandatory for Principle investigators (PI) as this will be the last opportunity to meet in plenary before the final IMPACT2C meeting in 2015.
